❖ Website

A website (also written as a website) is a collection of web pages and related content that is identified by a common domain name and published on at least one web server.

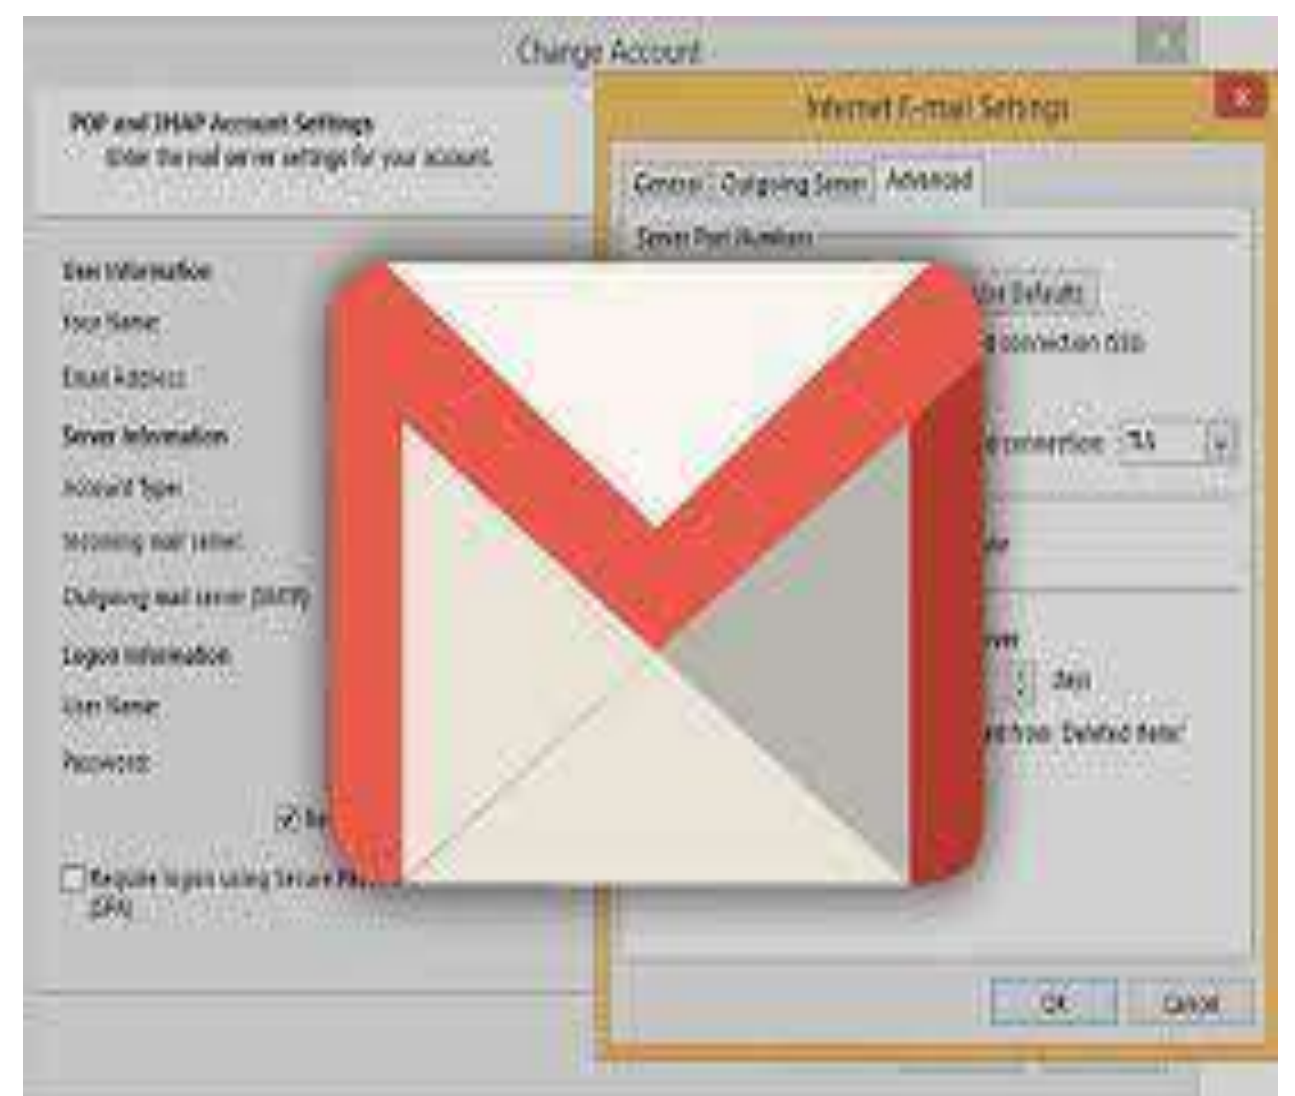

❖ SEO-15 Keyword

Your SEO keywords are the key words and phrases in your web content that make it possible for people to find your site via search engines.

❖ POP Email id

POP, short for the Post Office Protocol, is used to sync email from Gmail to any compatible mail client, such as Outlook, Thunderbird, or Apple Mail.

❖ Payment Gateway Integration.

Most of the merchants accepting online payments opt for a payment gateway integration. A payment gateway is a tool that allows merchants to accept online payments.

❖ Home Page Banner

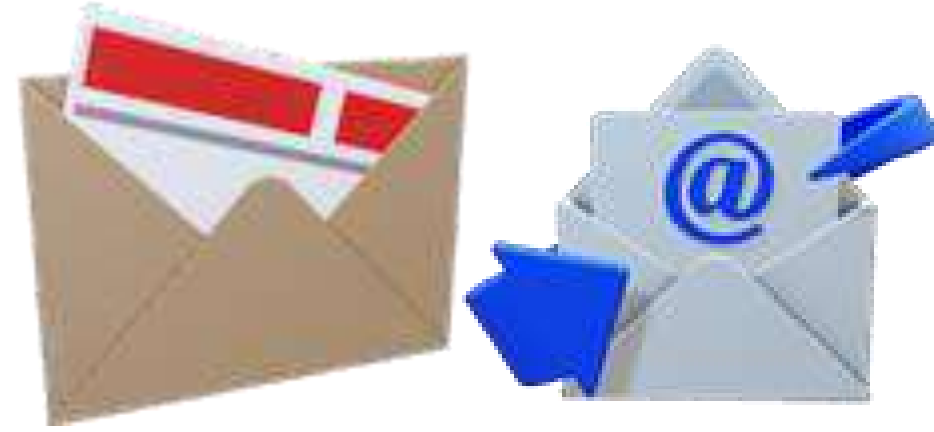

In the digital advertising world, web banners, also known as display banner ads or display ads, are clickable digital ads that are embedded into websites to drive traffic to the website of the advertiser.

❖ Trust Stamp

Trust Stamp's proprietary technology checks for proof of liveness in still and video images and compares them to forensically examined photo-ID documents and photographs found online to create a patented evergreen biometric hash.
